Hi Liz, here's the thinking. The wording of IX.D is broader and refers to any unexpected adverse effect that might be identified by consulting parties. It seemed that the focus on the two historic districts requested in the latest communication from SHPD would eliminate similar protection of other resources should they be encountered along the way. Instead, IX.D and IX.E are linked in the first lines of the new section. That way the details of the two districts can be presented pretty much as written by SHPD (with a few adjustments) with emphasis on the two districts. We can replace IX.D if that is preferable. Please let us know. Thanks!

Hi Faith,

Thank you for sending the PA. Under Stipulation IX, I believe the SHPO intended for her language to replace IX.D since she is primarily concerned about cumulative effects in the historic districts and not other places along the proposed alignment. I see that you added it as a new stipulation IX.E. Is there a reason why we may want to keep the original language?

Thank you,

Liz

Hi Liz -

Attached is the version of the PA that addresses your comments and comments made by the City and our consultants.

The City is on holiday tomorrow, but I will try to call you a little earlier than I did today to talk.

Thanks.
